

KARS 2meter Net Opening

QST.....QST.....QST.....

This is station _____ Calling the Kendall County Area 2mter Net.

This net operates on the KB5TX Repeater on 146.64 with a PL Tone of 88.5 located in Boerne, TX. This net meets weekly on Tuesday evenings at 7pm local time. All licensed amateurs are invited to check in and take part in net activities. Your net control this evening is _____ my name is _____ and I'm located in _____.

When checking into the net please use this procedure,

This is and unkey & make sure you are not doubling. Give your call phonetically first then your call, your name and your location. This helps keep doubling to a minimum and gives Net Control time to get you logged in.

At this time are there any stations with Emergency or Priority Traffic Only. Please call _____ Net Control

Any Mobile or short time stations only? Please call _____ Net Control.

Now I will take check-ins from all stations, if you have comments or information for the net please mention it when checking in, otherwise I'll assume you are for the count only.

When most have checked in, go to those with comments for the net first, Then give the weekly club announcements.

Usually the next club meeting, the next club breakfast, the next VE Session and any upcoming ham fest. Be sure to check for more check-ins

If there are no more check-ins (break) I would like to thank everyone for taking the time to check in tonight's net & I will close the KARS 2 meter Tuesday night net at (local time) and return the KB5TX repeater back to normal amateur service.

This is _____ clear
